MESSAGE FROM THE ACTING DIRECTOR, USTDA

It is my pleasure to provide the U.S. Trade and Development Agency’s report of the events and conferences sponsored by the Agency in Fiscal Year 2019.

Acting Director

U.S. Trade and Development Agency
U.S. Trade and Development Agency-Sponsored Events and Conferences in Fiscal Year 2019

Introduction

In response to the Office of Management and Budget’s (OMB) Memorandum on Promoting Efficient Spending to Support Agency Operations (M-12-12), the U.S. Trade and Development Agency (USTDA) is pleased to provide this report on USTDA-sponsored conferences and events for Fiscal Year (FY) 2019.

USTDA’s mission is to help companies create U.S. jobs through the export of American goods and services for priority development projects in emerging economies. USTDA uses two approaches to fulfill its mission. The first is project preparation through the funding of U.S.-led feasibility studies, pilot projects, and technical assistance to link foreign project sponsors with U.S. businesses at the critical early stage of a project when technology options and project requirements are being defined. The second approach, and the subject of this report, is through partnership building activities that are designed to connect buyers from developing and middle-income countries with U.S. manufacturers and service providers in order to open new export markets and commercial opportunities around the world for American companies.

In FY 2019, USTDA supported 23 conferences with expenses in excess of $100,000, disbursing a total of $5,044,028.57. Detailed descriptions of these events, organized chronologically, may be found in this report.
