As a result of a USTDA feasibility study, a power utility in Namibia purchased boiler equipment from a manufacturer based in Monroe, MI for the rehabilitation of a coal-fired power plant to help extend the plant’s life by a decade.

The U.S. Trade and Development Agency helps companies create American jobs through the export of U.S. goods and services for priority development projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

111:1 $111 in U.S. exports of goods and services for every dollar programmed
