USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Arizona Businesses

A USTDA-funded feasibility study enabled Tempe-based First Solar to win a contract to supply generation equipment and engineering, procurement and construction services for a 100 MW solar plant in Ma'an, Jordan.

A Phoenix-based company supplied sensor detection equipment to an Argentine engineering firm following its participation in a USTDA-funded reverse trade mission featuring U.S. intelligent transportation technologies.
