Questions, Answers and Clarifications

For the avoidance of doubt, the Grantee wishes to clarify that the work performed under Task 6 will be an input into the Grantee's Financing Plan, the contents of which shall be the responsibility of the Grantee. The Contractor will be acting in an advisory capacity only and will not serve as a proxy for the Grantee.

Specifically, in point 3 of Subtask 6.2, the Contractor will be expected to identify entities and portfolio companies that may provide equity funding or act as an operating partner, and provide such information to the Grantee for further action. The Contractor may also be requested to target potential financiers, in consultation with the Grantee, but the Contractor will, at all times, serve in an advisory capacity only. Further, any work product provided under Subtask 6.3 shall be provided to the Grantee for potential inclusion in the Grantee's investment materials; the representations made by the Grantee in its financial materials shall be the sole responsibility of the Grantee. The Contractor may accompany the Grantee to meetings with investors, as an advisor, if requested by the Grantee.

If so desired, the Contractor and Grantee may elect to incorporate this clarification into the final contract negotiated between the parties.
