

Brazil Water and Wastewater Technologies Virtual Business Briefing

August 24, 2022 | 9:00 AM – 12:30 PM Eastern Daylight Time

Brazil Water and Wastewater Technologies Business Briefing

The U.S. Trade and Development Agency (USTDA) will host a virtual Business Briefing on Zoom for U.S. companies interested in water and wastewater sector opportunities in Brazil. The virtual Business Briefing will provide an opportunity for U.S. companies to connect with key Brazilian decision-makers and learn about upcoming projects in the water and wastewater sector.

BACKGROUND

In July 2020, the Government of Brazil approved a new regulatory framework on sanitation and water that aims to provide universal access to sanitation services by 2033. This transformational framework is expected to attract \$134 billion of private investment in the sector, providing numerous opportunities for U.S. industry. Water utilities in Brazil are anticipated to make considerable investments in technologies and solutions in support of safe potable water production, efficient and reliable water distribution networks, wastewater treatment, reuse and disposal, as well as energy efficiency and smart utility solutions for longer-term sustainability.

ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding projects preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. individuals, U.S. firms, or U.S. consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at www.ustda.gov

FEATURED PARTICIPANTS

- ANA
- AESBE
- ABCON
- CAERN
- CAESB
