Executive Leadership Training Program 1 Clean Power Generation Solutions

BUSINESS BRIEFING | MAY 18, 2022, 9:00 AM | USTDA BUSINESS CENTER | ARLINGTON, VA

Meet Decision-Makers from Thailand

The U.S. Trade and Development Agency is hosting a Business Briefing on May 18, 2022, at 9:00 AM at USTDA's Business Center in Arlington, VA. Attending U.S. companies will learn about upcoming clean power generation projects planned by the Electricity Generating Authority of Thailand (EGAT), the state-owned power utility responsible for electric power generation and transmission. The Briefing is part of USTDA's Executive Leadership Training Program to familiarize EGAT representatives with state-of-the-art U.S. technologies, best practices, financing mechanisms and regulatory frameworks to support clean power generation in Thailand.

BACKGROUND

Thailand's path to energy transformation offers significant opportunities for U.S. energy solution providers. Thailand proposes to achieve carbon neutrality by 2065-2070 under a new energy plan that could see renewable energy account for a 50% share of its new power generation.

Thailand's newly-approved National Energy Plan 2022 supports the country's move to green and clean energy while increasing energy generation capacity to support growing demand. This could lead to \$4.2 billion in investment in the sector.

Thailand's transition will involve retiring inefficient coal-fired power plants, digitalization of power plants, decentralization of power supply and deregulation to support third party access in gas and electricity markets. To reduce emissions, Thailand plans to increase green generation.

ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. individuals, U.S. firms, or U.S. consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at <http://www.ustda.gov/>.

REGISTER NOW

WHY YOU SHOULD ATTEND

- Learn about upcoming project opportunities and bidding processes
- Understand the landscape of Thailand's energy transformation
- Meet one-on-one with key decision-makers from EGAT
- Form new business partnerships to support projects

BUSINESS OPPORTUNITIES

- Renewable and clean energy generation, including solar, wind, hydrogen, biogas, and biomass
- Distributed energy resources
- Carbon capture, utilization and storage
- Battery and pumped hydro energy storage systems
