

**BUSINESS BRIEFING | JUNE 9, 2022, 9:00 AM | USTDA BUSINESS CENTER | ARLINGTON, VA**

## Meet Decision-Makers from Thailand

The U.S. Trade and Development Agency is hosting a Business Briefing on June 9, 2022, at 9:00 AM at USTDA's Business Center in Arlington, VA. Attending U.S. companies will learn about upcoming power transmission and renewable energy integration projects planned by the Electricity Generating Authority of Thailand (EGAT), the state-owned power utility responsible for electric power generation and transmission. The Briefing is part of USTDA's Executive Leadership Training Program to familiarize EGAT representatives with state-of-the-art U.S. technologies, best practices, financing mechanisms and regulatory frameworks to support innovative power transmission and renewable energy integration technologies in Thailand.

### BACKGROUND

Thailand's path to energy transformation offers significant opportunities for U.S. energy solution providers. Thailand proposes to achieve carbon neutrality by 2065-2070 under a new energy plan that could see renewable energy account for a 50% share of its new power generation.

Thailand's newly-approved National Energy Plan 2022 supports the country's move to green and clean energy while increasing energy generation capacity to support growing demand. This could lead to \$4.2 billion in investment in the sector.

To better manage the integration of more renewables to its power grid, EGAT is focused on strengthening its power transmission infrastructure. Other areas of focus include battery energy storage system technologies, pumped storage, microgrids and digital and cybersecurity technologies.

### ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. individuals, U.S. firms, or U.S. consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at <http://www.ustda.gov/>.

**REGISTER NOW**

### WHY YOU SHOULD ATTEND

- Learn about upcoming project opportunities and bidding processes
- Understand the landscape of Thailand's energy transformation
- Meet one-on-one with key decision-makers from EGAT
- Form new business partnerships to support projects

### BUSINESS OPPORTUNITIES

- Advanced power transmission technologies
- Renewable energy policy and integration solutions and technologies
- Digital utility solutions including big data and analytics
- Cybersecurity technologies
