USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Florida Businesses

The Airports Authority of India awarded L3Harris Technologies, Inc. (Melbourne, FL) a contract to modernize India's air traffic management communications infrastructure as a result of engagement at the USTDA-sponsored 6th Biennial U.S.-India Aviation Summit.

USTDA connected a Miami-based company to opportunities in the Dominican Republic during a reverse trade mission focused on U.S. solutions for conversion to digital television, which led to new exports of digital broadcasting equipment.
