USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Georgia Businesses

A Georgia-based company won contracts to supply boilers for multiple biomass projects in Ukraine following a USTDA-funded feasibility study aimed at improving energy efficiency in power generation.

An Atlanta-area company won opportunities to supply electricity metering and grid security equipment to a Colombian energy company as a result of a USTDA workshop focused on smart grid technology.
