USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Hawaii Businesses

The Pacific Disaster Center (Kihei, HI) exported disaster response technologies, software and related services to Thailand and Vietnam after USTDA funded two technical assistance activities in those countries. The projects focused on enhancing disaster warning systems, flood forecasting and other disaster response and mitigation efforts.
