Summary

The U.S. Trade and Development Agency (USTDA) helps companies create U.S. jobs through the export of U.S. goods and services for priority development projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

USTDA accomplishes its mission by funding feasibility studies, technical assistance and pilot projects that integrate the expertise and innovation of American companies. The Agency also connects overseas buyers with U.S. sellers through its reverse trade missions, industry conferences and workshops. Unique among federal agencies, USTDA is mandated to promote the participation of U.S. industry in infrastructure projects at the critical early stages when design choices and technology options are being defined. The Agency places emphasis on economic sectors with significant U.S. export potential, such as energy, telecommunications, transportation, healthcare and agribusiness.
