USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Missouri Businesses

A Missouri company won contracts to export power grid technology to the Philippines after USTDA-funded technical assistance to support the country's electric power cooperatives.

A USTDA-funded reverse trade mission for East European power sector officials resulted in exports for a Missouri-based manufacturer of power plant automation equipment.
