USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Nevada Businesses

Nevada-based manufacturer exported power generating units to a private energy company in Turkey to develop geothermal power plants following a USTDA-funded feasibility study.

A supplier from western Nevada won a contract to sell turbine and generator monitoring equipment to a Bosnian energy utility, which helped increase the generating capacity and reliability of two local power plants, as a result of a USTDA-funded feasibility study.
