USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Oklahoma Businesses

As a result of a USTDA feasibility study, three Oklahoma-based companies supplied equipment to support the development of Honduras' first geothermal power plant.

Using technologies from a supplier in the Oklahoma City area, a USTDA-funded feasibility study led to the improved dissemination of real-time weather data and natural disaster information in the Philippines.
