USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Tennessee Businesses

A Tennessee-based company won a contract to supply the Manila Electric Company with steel products to support the electricity distribution network in the Philippines following USTDA-funded technical assistance.

A Murfreesboro-based company exported medical information technologies to improve information systems and recordkeeping in Jordan's healthcare system as a result of a USTDA healthcare records pilot project.
