## USTDA'S MISSION AND TOOLS

**T**he U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

## Proven Results For Utah Businesses

A Salt Lake City-based business exported wastewater treatment technology for infrastructure to improve the water quality in Manila Bay as a result of a USTDA reverse trade mission for representatives from the Philippine water sector.

Two Utah-based companies supplied equipment to support the development of the Pueblo Viejo mine in the Dominican Republic as a result of USTDA-funded technical assistance.
