USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Vermont Businesses

A Vermont-based manufacturer of renewable energy equipment exported wind energy components to Kenya following a USTDA reverse trade mission focused on sustainable power development.

As a result of USTDA-funded training for Indonesian rail sector delegates, a Vermont company supplied intelligent transportation solutions to support the modernization of locomotives in Indonesia.
