USTDA'S MISSION AND TOOLS

The U.S. Trade and Development Agency connects America's private sector to infrastructure projects in developing and middle-income countries. We achieve success by funding feasibility studies, technical assistance and pilot projects that integrate the innovation and expertise of American companies. USTDA also connects overseas buyers with U.S. sellers by hosting reverse trade missions, industry conferences and expert workshops across the globe.

Proven Results For Washington Businesses

A Washington company exported automated weather observation systems to Indonesia after participating in a USTDA-funded reverse trade mission on marine observation infrastructure and forecasting technology.

A Washington company sold electrical equipment to a power utility in the Philippines as a result of a USTDA-funded feasibility study for a smart grid project focused on meeting increased power demand in the country.
